

ARETAIC ALLIANCE

A High Performance Daily Training Environment for 13-15 & Junior Athletes!

July 30th 2014

TPASC (Toronto Pan Am Sport Centre) will become the home for a new daily training environment dedicated to the pursuit of excellence at the 13-15 and Junior FINA levels. This new program will be called Aretaic Synchronized Swimming Alliance.

Aretaic (pronounced r-ee-tay-ic), comes from the Greek virtue meaning “*pursuit of excellence*” in all aspects of life. The Alliance concept was developed in conjunction with several clubs bordering the GTA who believed that the establishment of a new high performance training environment was essential for both the long term growth and sustainability of the sport and the necessity to raise the bar of Synchronized Swimming in Canada.

With this idea of an Alliance in mind, the new program has received the support of Synchro Swim Ontario and Synchro Canada, resulting in the attainment of the best possible training hours and pool times at TAPSC. The new program will allow for various national level programs to come together, while continuing strong relationships with the grass roots and development clubs in the area. Please check out the link to this new incredible facility.
